

LEINOS 311

Wood Care Balm

Application: For the care of untreated sanded or oiled wooden surfaces, such as furniture or worktops indoors. Not suitable for floors and other heavily used surfaces.

Technical Characteristics: LEINOS Wood Care Balm is a solvent-free product. It penetrates deep into the wood and keeps it supple, protects it from drying out and prevents cracking. LEINOS Wood Care Balm gives the wood a silky lustre. It makes the wood surface water and dirt repellent, removes water stains and prevents them from forming. The product has a colour-refreshing effect and supports the natural grain. When used as intended, the product complies with Regulation (EC) No. 1935/2004 and the German Food, Commodities and Feed Code (LFGB).

Color: Yellowish.

Ingredients: Vegetable oils and fats, lanolin, beeswax.

Package Sizes: 0,25 l

Substrate and Preparation: Material, ambient and substrate temperature min. +10 °C to max. 30 °C. Clean the surface thoroughly with a suitable cleaning agent and allow to dry. Sand lightly if necessary (180 grit). The substrate must be dry (wood moisture content max. 14 %), solid, absorbent, clean and free of resin and dust.

Processing: Apply a thin layer of LEINOS Wood Care Balm with a lint-free cloth and polish in well. Depending on the absorbency of the wood, several coats may be necessary during the first treatment. The treatment should be repeated regularly depending on the load on the surfaces.

Consumption: Depending on the type and absorbency of the wood.

Thinning and Cleaning Agents: Soap and water.

Storage and Shelf Life: Store in a cool and frost-free place. Shelf life is at least 24 months if unopened.

Special Notes: Work materials soaked in product with oil that is not completely dry should be stored in an airtight metal container/water and then disposed of, otherwise there is a risk of spontaneous combustion due to the vegetable oil content. The natural raw materials used may give off a typical odour. Wear approved respiratory protection when using spraying equipment. Wear a fine dust mask when sanding! EAK: 08 01 12 / GISCODE: Ö10+

Hazard statements: Safety data sheet available on request.

Precautionary statements: Keep out of reach of children. IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Do NOT induce vomiting. Avoid release to the environment. Dispose of contents/container to an appropriate recycling or disposal facility.

To achieve optimal results, please observe the Technical Data Sheets of all products used. The information is based on the current state of our knowledge and experience. However, it does not constitute a guarantee of product properties and does not establish a contractual legal relationship.
