

LEINOS 342

Liquid Wax

Application: For a one-off, open-pored treatment of untreated or absorbent wooden surfaces in indoor areas that are subject to minimal mechanical stress. Not suitable for use in areas exposed to splash water.

Technical Characteristics: Easy to apply. Once dry, it can be polished to a satin finish. Allows water vapour to pass through.

Ingredients: Linseed oil, sunflower oil, wood oil, natural resin esters, isoparaffins, carnauba wax, beeswax, bentonite, drying agents.

Package Sizes: 0,25 l / 750ml / 2,5l / 10l

Substrate and Preparation: Shake or stir thoroughly before use! The substrate must be dry, sound, clean, free from grease and dust, and absorbent. Pre-sand wooden surfaces with 100–180 grit sandpaper in the direction of the grain, depending on the type of wood and the desired depth of penetration.

Processing: Apply with a brush or by dipping. Polish again once dry. Room and surface temperature must be above 15 °C. Shake or stir thoroughly before use!

Drying Time: Approx. 18–24 hours. To ensure the paint dries properly and to prevent odours from developing, we always recommend using a fan to ensure adequate air circulation over the painted surface during the drying phase.

Consumption: Approx. 90 ml/m²; this may vary depending on the absorbency of the substrate.

Thinning and Cleaning Agents: LEINOS Thinner 200. The product is ready for use.

Storage and Shelf Life: Stable for at least 2 years when kept in the original, unopened container. Store in a cool, dry place, keeping the container sealed.

Special Notes: Store work materials impregnated with the product, where the oil has not fully dried, in an airtight metal container or in water, and then dispose of them, as there is otherwise a risk of spontaneous combustion due to the vegetable oil content. The natural raw materials used may cause a characteristic odour. When using spray equipment, wear approved respiratory protection. Wear a fine dust mask when sanding! VOC content: 450 g/l, EU limit value: 700 g/l (Cat. f). EAK: 08 01 11 / GISCODE: BSL40

Hazard statements: Wiederholter Kontakt kann zu spröder oder rissiger Haut führen. Sicherheitsdatenblatt auf Anfrage erhältlich.

Precautionary statements: st ärztlicher Rat erforderlich, Verpackung oder Kennzeichnungsetikett bereithalten. Darf nicht in die Hände von Kindern gelangen.
