## Universal Stain Remover

**Application:** Water-based cleaning agent for removing stains from treated and untreated wood.

**Technical Characteristics:** Solvent-free product. Good wetting of the surface of untreated, oiled or waxed wood. Penetrates into the pores. Stains, for example coffee, tea or red wine stains, are dissolved from the wood and washed away.

**Ingredients:** Water, non-ionic surfactants.

**Package Sizes:** 0,25 l

**Processing:** Before cleaning, carry out a test with the stain remover on an inconspicuous area to check the effect on the surface material. Spray the stain remover undiluted onto the stain. After a reaction time of 15-30 minutes, gently work the stain with a brush or cloth until it has dissolved. For stubborn stains, further treatment with the stain remover may be necessary. Remove the washing solution with lukewarm water and dry the surface with a cloth. Once completely dry, the surface can be treated with a care product, oil or wax.

**Consumption:** Consumption depends on the type and degree of soiling.

**Storage and Shelf Life:** Store in a cool and frost-free place. Shelf life is at least 24 months if unopened.

**Special Notes:** GISCODE: GG10 / EAK: 07 06 01

**Hazard statements:** Safety data sheet available on request.

**Precautionary statements:** Keep out of reach of children.
