

Application information

... for “working within the system”

LEINOS Naturfarben is involved in the development, production, and sale of products that meet growing health awareness as well as professional quality standards in processing and application.

Our products are characterized by the latest and highest technical standards in production, as well as constant laboratory controls and many years of experience in practical applications.

In the past, we have often pioneered the development and refinement of innovative products ourselves or cooperated with well-known suppliers.

“Work within the system” – tips for high-quality results:

- **Be sure** to follow the information in our technical data sheets.
-> leinos.de/en-GB/technische-merkblaetter
- **Only use** the recommended products from our LEINOS range!
- If you have any questions about the product, please contact your dealer **in advance**.

This is the only way to ensure that all paint layers are technically compatible.

In summary, this results in professional product application for you, combined with high quality, functionality, durability, and safety.

ATTENTION: For optimal results, please observe the technical data sheets for all products used. These are available from your dealer or at www.LEINOS.de. The information is based on our current knowledge and experience. However, it does not constitute a guarantee of product properties and does not establish a contractual legal relationship.
